Information YOU record IMPROVES CARE

food

medicines

dressing

mobility

washing

activities

YOUR assessment records SHOW CHANGES

keeps records in one place

informs day-to-day care

giving the care needed

improving quality of life

happier lives for residents

staff involved in planning

training

support and practice

share goals

dedicate time

make data recording part of care routine

use the data to improve care

have enough devices

CARE WORKERS record digital data well – with the right RESOURCES

What if... everyone working in and with care homes SHARED the same DATA?

see what works well
